TOUR TIPS

1. Request a tour during or near a meal time to observe dining experience and service.
2. Request a tour time when you are able to observe a social activity important to the resident
3. Bring a camera or a cell phone with a camera
4. Are they offering any incentives at this time?
5. Consider an unannounced walk-in tour. While you may not be able to do a full tour, you will be able to observe the community during normal operations on an average day.
6. Always confirm your tour the day before.
